Teamwork Discussion Sheet

Project

Student name	Student ID	Items covered	Contribution on each item (%)	Overall Contribution on the deliverable (%)*	Signature
Jawad Al-Aqlani	40272579	Designed and implemented the Profile page (frontend + backend), including the UI for viewing/editing user info, API integration, and basic validation/testing.	25%	25%	JA
Pui Hei Lau	40317866	node.js server code for create resource, delete resource, all room booking and checking method, all resource management method, calendar real time status with switching week, personal booking status(can cancel booking), booking approve method with time conflict checking, view all approved booking and can cancel, and multiple new html page which is related to above	50%	25%	PL
Li-Liu, David	40318229	HTML, CSS, and JS of the pages, and also the backend.	50%	25%	DL
Shewraj, Harash	40320653	HTML, CSS, and JS of the login pages for the frontend and the backend.	25%	25%	HS

The sum of ratios in this column should sum to 100%

Discussion:

Please write a small paragraph discussing teamwork (who did what, how much, was the work allocation fair, did each member respect commitments and deadlines…).

Jawad Al-Aqlani developed the full Profile page (frontend + backend), including UI, API integration, and data update logic. Li-Liu and David built the main page. Shewraj and Harsh handled CSS/JS for the login and register pages and contributed to other styling. Puihei Lau created the HTML for the login and create-account pages. The team also worked together on the booking pages, with some CSS support from Harsh, and on additional pages such as the booking-status and resource-manager pages.
